

C-Span

I was very glad to have your station until this morning! It was the only station that was unbiased, but I see you have been bought off too. Either with money or power. I had been watching you 90 % of the day; not any more, unless you change back. All of the other stations (except the Rush Limbaugh program) are liberally biased as it gets. Polls are fixed!

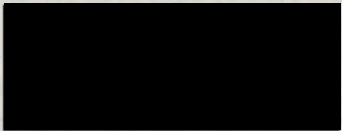

If the callers against Clinton's disastrous plan get through most and first, you should leave it alone! The ones for the plan can do the same thing if they are for it enough. What you are doing is basically screening calls, and if it don't stop, I will call my cable company and find out why I have to pay for you!

I am sick of the liberal media! This is getting like Russia, where you can't voice your opinion against an unrepresentative government. We have been lied to and had our pockets picked as long as we can stand it!

This plan will not work! It will give us massive inflation, it creates new pork-

- barrel programs, it is business as usual, tax + spend Democrats. I resent him calling taxes contributions; it shows how he will try anything ^{to} cover the truth. And how dare a draft dodger talk about my patriotism because I am sick of supporting the Democrats give away domestic spending, and young people as able to work as I am being given a hand-out by the Democratic Government.

This spending has got to stop! And you will revert back to your unbiased call in system or I am Cutting You Off! Permanently! If calls come in 15 to 1 against, we have a right to know? We're not getting the truth from anyone else! Who put pressure on you to squelch our freedom? I want an answer!
