

Dear C-Dream,

The Free Press must have been on a long trip to the land where the Bong tree grows.

I have been worried for a long time about the lack of fiscal responsibility, lack of concern by the President, lack of a realistic attitude of all the people entrusted to preserve this nation.

So now at the eleventh hour we see this great consternation. To rectify the damage? From the appearance they are trying to rectify themselves and pass the buck.

These people must think all of us were on a trip, gazing at the moon, crazy as a loon.
