Dear Sir,

I watch your program as often as possible. I think it is one of the most informative and important programs on cable. I have seen at times that you welcome suggestions. I don't know if this would be possible. I would like to see a program on the UFO phenomenon. I know it is very controversial and it is ~~subject~~ subject to much government suppression. It also brings much ridicule to any one or group that lends itself to the phenomenon. Many ~~to~~ scientists, air force personnel, investigating reporters, agents (current and former) of the CIA, NSA, NRO, and FBI have some deep concern over the phenomenon.

If interested you could contact people as Jacques Vallee, author of many fine books on UFOs. Also Peter Deroeten from the Center against UFO Secrecy (CAUS), or Dr. Bruce Maccabe, a physicist right there in Washington D.C. Try also Timothy

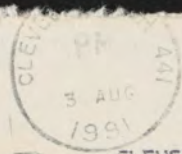

Good, author of Above Top Secret. I believe he lives in England. Also try Kevin Randle, retired USAF and author of UFO Crash at Roswell and October Scenario. You could also contact The Center for UFO Studies (CUFOS) in Illinois, a very noteworthy organization.

Thank you for your time. If at all possible please let me know what you would be able to do. I know it may be very difficult to put this on the air for the government has shown that they like to keep a tight lid on this.

Thank you
