Dear Brian Lamb;

I appreciate your presentation of issues in a way that maintains a terrific lack of bias. Because of this lack of bias I would like you to add to your panels a person who can speak about today's issues from an empowering, non-polarizing point of view.

I recommend PATRICIA SUN.

Patricia is the founder of the Institute of Communication for Understanding with 20 years experience in conflict resolution and problem solving. She offers a way of viewing politics, relationships, and current events from clarity brought about by a deep belief that empowerment is possible when based in compassion, healing polarity thinking.

This woman's approach to the world has given me incredible freedom.

PLEASE listen to the enclosed taped interview done in 1991 by a San Francisco radio show, New Dimensions. Ask her to be a guest panelist. You would not ever regret it. CALL her and just talk and see for yourself. Please.

Thank you so much,
