I watch C-Span because -  
155 400 North Capitol Street  
Washington, D.C. 20001

Sir;

I watch C-Span because, personally am very interested in the U.S. system of Government.

With C-Span a person can become directly involved, in order to understand the way the System responds in daily proceedings to particular questions of the times, and how they decide to resolve such challenges.

Parliamentary procedures are used to discuss every type of question and the many different ways of looking at any question.

C-Span airs every pertinent side-lights, as well. For an example, the downing of the Korean airliner, and many other everyday goings-on.

Lastly, C-Span is one of the deciding factors of my declaration of candidacy for the House of Representatives!

The System works, and C-Span covers it!

Regards

P.S. Even if someone e.se is elected, I think I will watch C-Span, and vote the way I would!
