Thought I would give you a progress report of what took place with your suggestion for me to contact, Jack Russ, Sgt. at Arms for the House of Representatives.

As expected with what used to be known as a "Political Hack", nothing happened not even the courtesy of an answer from this guy, guess he is too busy counting his recent raise in pay the Congress gave them-selves.

Going to send this info to Congressman Stearns as you suggest along with the added note about the Sgt.

Don't expect the Congressman to do much about it as he is learning the ropes there, he just got elected for the 2nd term and he is doing well, but making some enemies with his co-workers by his voting against the pay raise.

About another prony, "Miliken" he kept approx. 700 million according to the media, why don't they take all of it from him and send him away for good?

Also take the Senators <sup>S&L</sup> and remove all their assets from their care and send them to the workhouse for several years, just like if they were equal to others, as they say, everyone is equal, baloney. In all my years this is more of the hypocrisy of this society, like the late Jimmy Durante, I have a million of stories to tell in my long life about the phonies I had the misfortune to meet in my travels.

This "hypocrisy" is one of the leading causes for the decline of this Country in recent years.

I would not try to call your Station or Channel as it would cost me money, I believe that when a person asks me to call them for some reason, they should pay for the call, just like any other invitation, ie; an invite to dinner, etc.

As a retired person, a Firefighter most of my life existing on a pension that may be in jeopardy in NYC due to their financial condition over the past years, the City is getting worse each day as the public officials there are grabbing all they can get before the crash comes, looking for raises in salary and the Gov. of the state will probably look for another job as he has ruined the State financially.

Well as they say, "Have a Good Day" more hypocrisy.

XXXX) Like they say here in Fl. advertising the lottery; "You Never Know".

③ Thank You for answering my letter, at least there are a few good people left,

Ocala, Fl. 32671

XXXX) PS. Almost forgot; how come no one in the media has thought of telling the public, that perhaps Ted Turner and his girl friend as some people have stated  
① the "Traitor Jane Fonda" may have been instrumental in ordering the Turner reporter Arnett to stay in Iraq and be a mouthpiece for Saddam, who knows?

XXXX) ② The Jane may have whispered in Turner's ear, and he fell for it.

I have been watching your TV station for years as I am retired and in my 82nd year.

I note each day the House is in session that there is more disorder than order, more time is wasted with the "Chair" always pounding the desk with his gavel, but it seems to do no good.

I thought that the House had a Sergeant-at-Arms which, with other duties, were to keep order in a Legislative body, why, if this be true, does the House put up with this lack of discipline?

Another question that comes to mind is; Why when the U S Supreme Court renders a decision as the law of the land, does the Congress (House) especially, try to over-rule the Court by passing or attempting to, a bill to have it their own way?

If this can be allowed, then why does the Country have a Supreme Court? Why not do away with it, and have the House act as a Body Dictatorship.

Started to listen to politics back in 1924 with a "Crystal" home made set with ear-phones. Now I am watching your station as the House Members are having their 1 minute verbal exercise with all their own personal gripes.

Hoping you can answer some of the above questions;

Sincerely,

PS. The question re- the Supreme Court was asked due to the recent veto of the so-called "Civil Rights" bill that was vetoed yesterday by the President, this bill was nothing more than an attempt to overcome the decision of the 6 times the Supreme Court went against these illegal requests by some people who have been making more headway in this Country since I was a boy, than any other group of people in this Nation. Just watched approx. 5-6 House members speak about the veto and they were all what is known as minority in this Nation. They certainly had no problem getting elected to the House, why are they complaining?

PPS. How about looking into the possibility of taking all the money "Milikin" has left over from his theft, which is approx. 700 million and distribute it to the retired Seniors who he robbed, then throw him in jail for the rest of his life.
