

planning for war - Thank God we
did not have a war. yet we are still
building on ^{more} war material. Good army
is need - we are not free yet - any
thing or Country can blow up -
South America is a hot spot.

It is disgusting when abortion
and Flag burning is used to get votes
Both are political foot baes.

The Evening news is political -
Bias or what ever. It is up to a
person to sort their own ideas
out - And all the talk of Right wing,
Left wing, Liberal, and conservative -
Too me it only mean bull headed -
I get know sense out of all that
talk -

Keep on as you are going -
Educate the American people who
have been dormant too long -
Burning the flag is defiance of the
Law - Keep them off TV. That is
what they want - To be seen -
Sincerely -
