Dear Brian,

Since I don't have a computer for 'E' mail and can't afford long distance phone charges this letter is to let you know my feelings.

From the beginning of Pres. Clinton's terms we have been convinced there was a decision made to destroy him. I really thought it was going to be assassination. Since first hearing Rush Limbaugh on radio saturating, 3 hours a day, in every small town across the East coast. We travelled up and down the coast and could only get Rush or small stations local preachers. We listened to Rush for about two months. He told us all

O. impeach

about who he was and where
he came from, his education -
scant - really self educated. His
horrible words about Pres.

Clinton & his wife and daughter
showed such a vile approach
to the whole Democratic party
and everyone who didn't agree
with his slant showed us he
wasn't a personality we'd
listen to. Look what happened?
Rich and Larnoes - saying he was
faking! The real intellectuals,
religious, conservatives praised
him promoted him and voila!!
his was the voice used to
bring the HATE plan against
every thing Pres. Clinton and
the elected Democrats did -
Payback time for lots of Republicans.

This insane year of allegations, truths, falsehoods and confusion are the result of four years of hounding and torturing a vulnerable President. Gate rules the House.

To have deliberately released this raw account of a man's darkest acts after 4 years investigating everything in his life to the point where I think he and his wife were paranoid, then put it on the Internet is what only the most evil of men would do to another human.

So instead of assassination with a gun, this time it

is assassination of reputation
by a ~~methodical~~ process - then
using impeachment to kill
him.

This is what I saw. I am
a mother of seven children
(74 yrs) (5 girls - 2 sons)
who are well educated and
very productive citizens. They
have 15 children among them
Some thru college and
good productive, intelligent
citizens. We believe Pres.

Clinton had rocks in his
head to have ~~been~~ allowed
This set-up to happen - but
I think 4 years of torture
could do that to a man!!
Sincerely,

P.S. - I am a political junkie
since I was 4 yrs old!!
