We watch you a lot, especially in the morning.

However, I really get irritated when you cut off a really good show to show the short speeches in the House of Representatives, as you did the other day, when there was a great panel on the topic of White water.

I also feel it is a waste of valuable air time showing vote counts. You could have a good program on the air & cut in every now & then showing how a vote is progressing.

I enjoyed the week you had several different talk show hosts.

Dear C. Span,

I never dreamed that I would ever be writing you a letter of criticism. We watch your programs a lot, especially in the morning.

However, I really get irritated when you cut off a really good show to show the short speeches in the House of Representatives, as you did the other day, when there was a great panel on the topic of White water.

I also feel it is a waste of valuable air time showing vote counts. You could have a good program on the air & cut in every now & then showing how a vote is progressing.

I enjoyed the week you had several different talk show hosts.

However, today (April 21) with Innes is a waste of time. I haven't heard him discussing anything with anyone yet. And I really don't care about how the traffic is today in New York City.

I thought your week at US News + World Reports was terrific. I also like your Book Notes program.

In fact I like most of what you do, but this dumb show with Innes today is what finally prompted me to write.

Sincerely
[Redacted Signature]

P.S. If you keep records about people who write, I am a 68 yr. old white female Republican.
