Dear Brian Lamb & C-Span Staff:

I am a big fan of C-Span and the variety of programming that is on your station. Would you please have Alan Friedman on either a segment discussing Iran or on Booknotes to discuss his book "Spider's Web - The secret history of how the White House illegally armed Iraq.

Thank you for considering this for C-Span audiences. I think the material is very timely since Iraq is back in the news.

Sincerely,

S.BK
