Dear C. Span.

During the course of the Anita Hill and Clarence Thomas hearings. I was very impressed with Anita Hill. She gave a very credible testimony which I think remained sound and even stronger under extreme fire. Also her corroborating witnesses were far more believable than those who witnessed on the behalf of Clarence Thomas.

Clarence Thomas could not come close to being as perfect and pure as Clarence Thomas was described to be, Only Jesus Christ is perfect and Clarence Thomas is not he.

I believe Anita Hill has told us the truth and I believe the entire committee also believes that she told the truth, but some were not after the truth, some I believe wanted their man on the seat of the Supreme Court in spite of his guilt. I listened to

Clarence Thomas, and I can believe nothing other than he is a self righteous me, me, me, sort of person and a liar under oath. But he probably will go to the Supreme Court, as of yet that decision has not been made.

What really shocked me was how the American people could call in to attack Sen. Edward Kennedy who has served this country really in such a spirit of, for all the people all the time.

He has three brothers who were killed while serving this country. and I must say when John F. Kennedy was president he inspired love for country as well as for our fellow man.

We have not had so great a man in the oval office not in my life time except for Franklin D. Roosevelt.

When President George Bush speaks of the New World order, I believe it to really mean the New and upcoming One World Government. I also think that Republican and Television Host of the 700 Club Pat Robertson has written a book to bring this out, titled New World Order, I would advise every Senator and every Congressman get a copy of this book, they would probably learn quite a bit.

As far as the Media is concerned, It would be nice of the News Media to set the polls aside, they are like a sea saw from one event to another. Stop flowering with the public because you can't please the public. I would like for the Media to really seek out the truth concerning George Thos Clarence Thomas. and not be too ^{quick} ~~fast~~ to believe the fairy tales that Clarence Thomas can stand on equal ground with Jesus Christ. and as I close

I would like to send a letter of thanks to Sen. Biden, Sen. Heflin, Sen. Edward Kennedy and the other four Sen's who sat on the Democratic side of the Committee, but I do not have their addresses or even their full names nor even all the names of these 7 Sen's. But if you ever run across them could you please convey to them I'm very proud of the way they conducted themselves during these Clarence Thomas Confirmation hearings.

I think the conduct of the Republican Sen's, speak loud and clear of why I choose to be, now, always have been, and shall remain a Democrat to the end.

Thank You
