To Senator Thad Cochran and Trent Lott

I'll tell you I know very little about the subject of digital must-carry. I'll also tell you I think we all owe C-SPAN big-time for Republican successes over the last 20 or so years.

Brian Lamb's networks are non-partisan but on these channels we have been able to see the truth about the goofy Democrat programs. We are opting for smaller and less intrusive governments.

I urge you to have your staffs get a copy of Brian's thoughts on page 69 of the July 13 issue of MULTICHANNEL NEWS. See how the 1992 cable act hurt C-SPAN. We hope you will listen to Mr. Lamb.

As the masthead of my Scripps Howard paper says, "Give light and the people will find their own way." Please let us help C-SPAN give light to the people.

Regards,

CC: Mr. Brian Lamb, 400 N. Capitol St NW, Washington, D.C 20001

Thank you MR Lamb for your good efforts.
