To whom it may Concern:

The other day I tried to call-in on your program, and the lady cut me off. I never can get thru otherwise, as its always busy.

What I wanted to ask was - How is it, that there pay raises & Xmas bonus of 5,000.00 each to those members, is never brought up? There all living nice and comfortable with there large salaries, and getting free drugs, parking and etc.

I watch C-Span all the time, and all I hear is alot of talk between all of them, and no action.

We need action now, not 3 or 5 years later.

The poor people are hurting, but they couldn't know it, because there all comfortable and no worry -

When you have one of these members on, I am hoping it is brought up. The Voters I'm sure would like to hear about it.

Bush have given them raises after raises. Is he really concern about the poor?

Bush keeps vetoing the democrats bill, because he doesn't want to pay taxes on his millions and also keeping the rich, richer.

I wouldn't call him a fair President at all. There only thinking of themselves to get richer on the tax payers money.

What a disgrace.
