There is so much ado about the Clintons - white water. And they did lose money. I feel it's a good thing they lost money, because I feel that guy - from Kansas, namely Bob Dole, that has claimed that he wanted to become a nice guy for a change, because he wants to run for the Presidency. Golly gee, if he is a nice guy now, I'd hate like hell if he really got nasty. Idi Amin and Hitler would look like after boys next to his being a nasty jerk. I personally put him on the same level as Reagan, and you know what Truman Capote said about good actors. Ron was a good actor, but to my feelings as a President I would hate to even ^{go rate him} as high as an F. A was best like in school grades.

Reagan gave the Japanese the secret of the silent running sub. Personally - I never heard him,

on Bush talk about how many subs
the Japanese made for the U.S. A. or
if only the works for silent running

It has to be about 6 years ago,
and as yet I haven't heard it
even one mechanism was made.

Now I'm only asking - not saying that
he did, but I don't know what the
Japanese had to say about his speech
in Japan that he was paid two million
dollars for his chatou there.

Then Bush went there as President
and he accomplished to heave-up
on a dignity, and our trading deficits
have never come close. Now there's
over Fifty Billion Dollars a year or
close to it that are Republican
left-overs - deficits, so as far as
I can see, Reagan made 2 million "two"
dollars - Bush got sick, and then
came Clinton that said he'd kick their
pants for him, and already the Japa-
nese want to talk apples and lessen
the deficits each year.

Why isn't the ³ Republicans Asking
for a clearing of the smelly winds
coming from Japan. Korea told Japan
to kiss off or else - Russia also and
Russia thought N. Korea was a friend.
With friends like them Russia doesn't
need any enemies. Russia better
start to warm up to the U.A.A. or
maybe Russia will say Bye-Bye as the
Siams did.

If America wants to still be
America 20 years down the line, then
guys like Gingrich - Dole - D. Amato and
many many more better start pushing
for line vetoes to knock out pork
barrels - No more illegal search
of any person elected or working
for any part of Gov'ts - City - County,
State & Federal. No more immunities,
no more statute of limitations if they
really say they are the G.O.P. And
not just toe-headed Republicans. I've
asked several Democrats that if they

wish to save America, they are going
to have to take away the last 2 "two"
thirteen Tax cuts so that Big Business ^{would} ~~not~~
pay less taxes, and maybe they could
pay the same amount of the Budget
as the workers - taxpayers do without
a tax increase. "Reagan Joke". ^{laugh}
He laughed when he said it, but I didn't
but I'm laughing as I write it. Hahaha.

I wish the Republicans would
do as they say that it is what they
want to save America. Eisenhower
tried to save the social security. It
almost went broke from his taking good
care of its monies. Richard Millhouse - we
won't even think that one out. Ronnie tried
to bankrupt the Best Country in the West,
And Bush tried to veto everything except
take care of his son so that he wouldn't
go bankrupt. Is that son still in the
motel Business or is he the one that's
running for Governor. Is that son
still in the Business or did he sell out
And for How much? Did he pay back loan? Hahaha

George stated ⁵he was finished with Politics, but Politicians make strange bed companions. Got his son over a million Bucks.

I will have to run through about 6 bags of Political Jokes to see if I can find out which son had a second mortgage paid by the Federal Govt, so that he wouldn't go bankrupt. I'd like to learn about his dealings. Papa and Son. Maybe it could be a better cartoon than the whitewater works? I'm really getting lazy. I wish I could get some info from Cspan. You people are good at this kind of info when you want it.

Please try harder to save America. If we have another Reagan Bush 12 year Deal, America could be named Little Japan. I'm too old to learn Japanese. Save America.
