

10-3-93

Dear Sir,

From what we read Cable was to be both cheaper & better when the new rules went into effect this fall - refunds were to be sent if the Cable Co. had raised their fees last fall - Ours did - its Viacom & are they mad and taking it out on their customers. Our bill went down \$1.43 & no refunds and they have cut C-span - a kind of channel you can't get anywhere else - and are having it share time with BET. You can get black entertainment on 3 or 4 other stations on any nite but, you can be watching a really good program on C-span & at 8:00 P.M. - off it goes and a bunch of jumping blacks are on with loud music.

We have a 6% black population in Wash. State - 11% Latino - 11% Asian - the blacks are well represented on our T.V. & don't need BET at all. Every one I know is disgusted with Viacom cable. [REDACTED]
