C-SPAN

WASHINGTON D.C.

Director of Programming:

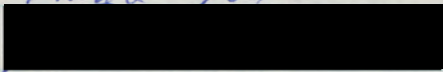

Thank you for most useful programs — and the chance to see how we are represented.

Thank you for Moscow News 1 and English translations — I would like to see one change in this program — PLEASE take your advertising off the screen — it covers the writing from News-1. Names and places are hidden — and not always translated.

Most people already know what they watch C-SPAN for and do not need constant reminder — others

Should be able to see at either
beginning or end of news.

Thank you
