President of the United States  
of America,  
1600 Pennsylvania Avenue,  
Washington D.C. 200-06, USA.

Respected Mr. President,  
How you can help India to be really free and democratic like America

The Indian Govt. is hijacked by the bureaucratic status Quo lobby, which does not want any change. It has transformed a Govt. of the people, by the people, for the people, into a Govt. of the few, by the few, for the few.

This lobby systematically destroys and ignores most suggestions and complaints made by anyone in or out of Govt, to perpetuate its absolute power over the Govt., press, commerce, industry, economy, law, order, education, politics

This lobby is Anti-American because it hates American Idealism, openness, free press, free marketing & trade, and the American love for honesty, integrity, truth and freedom of information, because if these virtues are adopted in India, they can destroy the status Quo lobby overnight. Also America's love for justice & fair play.

America's Superb investigations like 60 minutes is hated by this lobby.

Conspiracy against the interests of U.S.A. and India.  
Thank you!

This lobby has enslaved a supposedly free people and free Govt.

To perpetuate its power, the status quo lobby keeps everyone anonymous, nameless, faceless and addressless, in all offices, banks, post offices, businesses, schools, industries, even private homes have rarely names. No name plates on desks or name shields on doors are used to identify people. Hardly one percent of population may have identity cards or passports with their pictures on it. Most houses have no numbers, so it is almost impossible or very difficult to find or locate anyone. In this way no one can complain against them and they remain accountable and answerable to no one.

By making lot of rules, regulations, procedures, communication barriers, forms, permissions, licenses, this lobby has created an impossible labyrinth, in which only a few selected people can gain anything from any business, Govt. programmes, industry or private enterprise. In this way, they can destroy any individual or organization they don't like, especially those who want to do business with integrity & honesty.

Unless this lobby is exposed and stripped of its power to stop changes, American, German, British, French, Italian, <sup>spanish</sup> Canadian businesses cannot succeed in the 850 million people market of India, on a significant scale. Also good friendly relation cannot be established.

Monopoly, secrecy, anonymity, communication breakdown, chaos, are the tools used by status quo lobby to perpetuate its stranglehold on India.

I urge you to take action to free India from the status quo lobby. Thank you!

Copy to:- H.E. Helmut Kohl, Chancellor of Germany, H.E. John Major, Prime Minister of Great Britain, H.E. Mitterand, President of France, Leaders of Canada & Italy, & Spain, with same request to free India, please.

Yours respectfully

One step you can easily take to break the stranglehold, is to send lot of magazines, newspapers, books from 6-7 countries to all major libraries, Universities, schools & colleges in India. This will break their secret censorship on new ideas. Please make sure that this lobby simply does not know a way to these magazines, newspapers & books.

Dear Mr. Preston,  
Subject :- How you can reduce  
poverty in India and other countries

I would like to help you reach your goal of reducing poverty in backward and/or overpopulated countries like India.

I was recently in India, and I made a shocking observation, that everyone was kept there anonymous and faceless, nameless, by the whole system in the Government, industry, banks, stock exchange, schools, colleges, TV, Radio, Post offices, railways, factories, air lines, Press, ~~practically~~ practically everywhere. On top of this buildings have no Nos. This makes it very difficult to find any<sup>one</sup> or anything. you cannot identify anyone without asking him what was his/her name. This I believe is one of the most important reasons for the poverty →

in India and other countries in Asia and Africa, because this kind of annonymity breeds and multiplies unemployment, inefficiency, low productivity, graft, corruption, extortion, blackmail, harassment, abuse of power, injustice, absentism, crimes, scam, wrongdoing, nepotism, stone walling, favoritism, terrorism, low morale, red tape, delays, do-nothing, say-nothing, write-nothing, read-nothing, see-nothing, see no-one mentality. The police cannot investigate anyone.

Very few people (perhaps one percent of population) have identity cards with pictures, or passports.

Decision makers keep a very low profile, so they can do as they please & the public <sup>or press</sup> can never find out what wrong they are doing.

Even the press is part of this annonymity. Newspapers will rarely write names of their editors, publishers, writers, & when they do, it is in very small letters on one of the back pages.

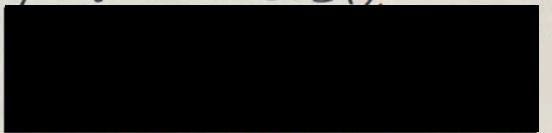

No one has a name plate on his desk, or a name shield on his door. In private homes, apartments, there are ~~are~~ no name shields either.

You have great clout and very high stakes. Please use your clout to change this in India and other countries.

in India & tackle the lobby in India. USA & Britain, France, Denmark have excellent Governments because they tackled & defeated the status Quo Lobby, <sup>Long ago</sup> & stripped it's power to stop progress & prosperity. You can take following actions to strip this powerful lobby of its power: - ① Every one in Govt. Banks, Post offices, Air Lines, Railways, hospitals, schools, colleges, police, military must have a identity card with their pictures, names, addresses which they must wear on their dress. Also every one must be identified by a Name Plate on their desk or counter in big letters, every door must contain names of people seating in that room. No one should be allowed to remain faceless or nameless, addressless, like in Germany & USA.

2) suggestions procedures, which Govt → business, → suitably → improvements they save, solve. In the

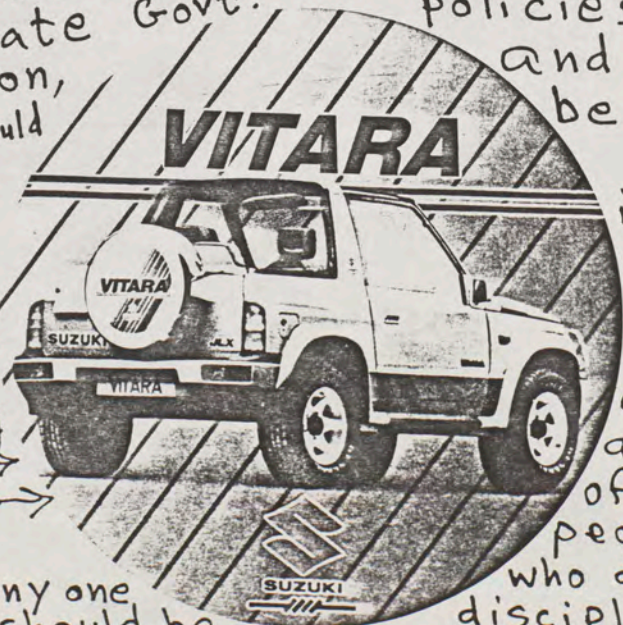

for improvement of policies, & ways by & industry is doing should be invited & rewarded, for the they make & money and problems they USA 2.3 billion dollars

(or Rs. 6,900 crore Rs.) were saved in 1990 by implementing 328,000 employee ideas. Almost 33 million dollars were paid in awards to suggesters. On an average 7000 Dollars were saved per suggestion and each dollar in award money saved more than 70 Dollars.

3) complaints should be welcomed & appreciate because this is the way you can judge if Govt. Departments are working according to their mandate. These complaints should be resolved and answered within one month. No complaints and suggestions should remain unanswered even if they are wrong. Suggestions & complaints are school books from which we learn.

4) special interest groups, or a crowd of angry demonstrators should not be allowed to dictate Govt. policies. Interest of the nation, and service to the people should be the guiding principle.

5) An Ombudsman for resolving or she will for resolving wrong doing, → harassing → working → blowers. Any one complaints should be

independent should be created complaints. He be responsible complaints about abuse of power, of honest & hard people, whistle who does not answer disciplined.

Pakistani News Paper "News" does this daily. They publish their own address & phone No. Why Indian papers don't do this?

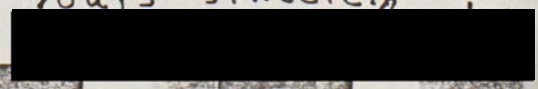

6) Important & emergency telephone Nos. should be published in the news papers daily, specially phone Nos. for health emergencies, personal emergencies, crime emergencies, bomb threats, suspicious packets at airports & railway stations, suicide hot line, counseling for rape victims, crime victims, and poverty victims who are dying of hunger, should have shelters and free food at special facilities. Big cities like Bombay, Delhi, Calcutta should not be allowed to expand, and those who want to leave these cities should be given free tickets to go out. Huge population pressure can trigger riots, in these mega cities.

Status Quo Vs. Change

7) The status Quo Lobby and co-operating bureaucracy is stifling innovation, new ideas, competition, productivity, and strangling the Indian economy, commerce & industry. They do this by too much rules & regulations & forms, which give them power to ruin any business, industry or individual they don't like. It is time to reduce and simplify these regulations. The ~~is~~ complicated labyrinth created by the status Quo lobby to discourage competition & to encourage monopoly, misadministration, mismanagement, & waste of national resources, should be destroyed, and a new system must be made with freedom, justice and prosperity for all should be created.

8) The price of Status Quo is much higher than price of change. Yours sincerely,

and how:- 25.2.93.

READ

The status Quo<sup>Lobby</sup> is getting  
away with murder of dreams  
of 800 million Indians. How?

By ignoring and throwing away  
any suggestions for improvement,  
or saving money, or how to  
catch the ~~enimi~~ white collar  
criminals, or how to raise the  
standard of living of the common  
man. Also any complaints against  
wrong doing, abuse of power, harassing  
of honest & hard working people,  
non-responsiveness, are simply  
thrown away! Why? because accepting  
& implementing the suggestions will  
take away the power from this  
lobby & the complaints will force  
them to fire their dear friends,
