I watched your program on
the 10-12-90.

I am pleased to see and
~~have~~ hear someone like Mr. John
Lofton. He make a lot of sense
to me.

On the other hand, Walker
makes me sick to my stomach,
and the other man does also.

I am so tired of hearing
about poor black, that I
don't even watch much news on
T.V.

Mr. Lofton is right about
~~just~~ ~~eth~~ ever thing I hear him
say.

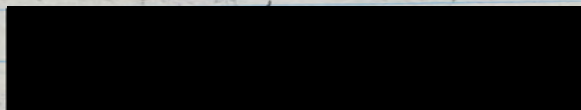

I could name a lot of thing
to cut out.

Two I haven't hears

① Do away with cost of living
let free interprise be vail.

② If the U.S. can send a
man to the moon, it can get
50 mile per gallon of gas in a
350 C.I.D. motor.
