Dear C-SPAN,

The politicians have sold out this country. We have no jobs, 35 million people with no health insurance, 10 million illegal aliens, a crumbling infrastructure, no export base, a \$4 trillion deficit and an AIDS epidemic. This country has become a cesspool. With all our technology and resources we're forced to live like animals. It's disgusting. We have no visionary leadership in this country whatsoever. The only thing the dirtbag politicians are doing is damage control. I don't know how they can live with themselves. They've robbed us blind. We're being forced to pay for future generations instead of being allowed to live our lives now. It's a total ripoff. We shouldn't have to mortgage our lives like this. It's lunacy. I don't want to live in a world that is so warped.

Sincerely,

[REDACTED]
