C-Span-Mr. Brian Lamb.

First I started watching
C-Span during-Mr. Tom Lantos
hearing on Hud

I did what you asked at
your Ten years programming.
I called my cable Co-Southwestern
Poway, Calif. - Mrs. Ann Burn
I made my call & thanked
her office for my really good
quality picture & service too.

I listened to your interview
on my public radio station here
enjoyed very much the history
of C-Span. And how you started
C-Span & why, you couldn't
get enough information. Thanks
Now I have been very upset
a month ago I turned ^{off} C-Span
on at Sat. nite and started
watching the program on

002594 JUN 22 93

Days by some Media Conservative
I became so angry as I
continued to watch this
porn garbage - pictures -
doctors reports and so on
it only continued to become
even more unacceptable.
I was so very disappointed
that you would program
this gutting quality program.

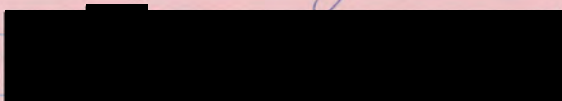

Mr. Lamb you are always
saying how you try to balance
your programming.

After that mess of Gulf
bashing - why do you not
try programming the Prime
Time program on the
children - and mothers our
service men's government
left behind in the Philippines
cost of our gov. was 100,000 a year
over

we spent to maintain
brothels for the Navy.

I don't want to tune in
C-Span and watch Gays
in Porno pictures and I sure
don't want to watch Gay
bashing from extreme right
I just feel that whole
program was totally out of
control - certainly it was
in poor taste. If you keep
putting this type of programs
on your Round Table on Fri
will become even more
one-sided - people calling in -
you mention the
bias calls often.

I thank you

I complained to my cable company
