To whom it may concern:

Twelve years of Republican greed in Washington and now the new Senator from Texas says take the taxes off the table. The Democrats wrote Texas off when they appointed Senator Benson as Secretary of the Treasury. Senator Hutchinsons victory wasn't that great. It was predicted. Why doesn't Senator Hutchinson listen to President Clintons speech in San Francisco and help get this country back on the right track and not the wrong track lead by Senator Hall and his clowns and Pat Buchanan, Robert Novak and many more including Ross Perot. The engine of Reform is on the right track, that of Clinton Gore.
