Dear Brian,

5th Anniversary - Booknotes

I'd love to have one of the Anniversary Bookmarkers...!

Hope I make it in time!

Best wishes to all a [REDACTED] -

PS: Will you do the Wilma Markiller book?

And we will not make environmental progress until we recalculate
our fundamental beliefs...in that regard, perhaps you could do one
of Jim Mason's books? (Animal Factories or Unnatural Order)

Thank you

Dear Brian:

American Humanist Association, POB 1188, Amherst, NY 14226

Much of my library time is spent reading HUMANIST Magazine. They are giving leadership, fresh insight, and well-thoughtout positions to issues frequently not even mentioned by other magazines.

They are not imitators -- what other magazines are doing is irrelevant to them almost.

I've been elated to find from time to time that you are running the American Atheists Annual Meetings, and I've been hoping that you might run some programming from this very unique group--the American Humanists.

Perhaps you will give this some thought?

Thank you,
