I listened to your early program and was surprised that a caller would quote some unnamed poll that Clinton might even in Texas.

I had just read a September article that was information compiled from reports by the Associated Press. This poll said it was a very bright spot for Bob Dole as he is leading by 11 points in Texas.

I was at my time share unit in Flagstaff and had the opportunity to talk to people from Texas. They felt that the lead is even larger.

Previously I have enjoyed listening to callers but recently I found that especially Democrats select some poll or information from an article that is altogether the opposite of the research I do. I subscribe to several papers, go to the library and get a number of other publications.

It might be of interest to many people if someone from C-SPAN ^{would} report every few days some authentic polls from different states. I decided not to listen as much to the calls, I do enjoy and feel Susan is very fair and find the way she conducts the program with guests is excellent.

Sincerely,

Visitors at the Time shares and
exchange visitors from South America
and England could not understand
how President Clinton is leading
in the falls. I felt very ashamed
that he is supposedly leading
in Arizona. This wouldn't have
happened a few years ago before
there was an influx of people
from other places, especially from
the East and Calif.
