

For Most Journalist;

Are person's with nothing on their mind and the power to prove it on T.V. Some one who doesn't have the personality or the knowledge to be a politician but a voice with all the right answer's. But! also a person who may not have all the answers but is sure they could get them if they got the answer they are seeking from the person they are questioning. My world is seeking a better answer than that of a Journalist:
