I watch C - Spann because;
I have always been curious how our
government works

As a student in a one-room school-
house, I remember studying the working
of our Congress, and it left me
with a wondering awe.

Now, in later years it is a great
privilege to set in my home, see,
and hear the, apionated, the un-apionated
which greatly enables me to make
decisions from my own scrutiny, about
our government and its leaders.

C - Spann, has opened a window
to me, on seeing the beauty of Washington,
and our political Process at work.

A pleasure, that has been denied
the average citizen.

In short: (It Makes Me Proud
To Be An American)
