Dear Sirs:

I don't think I could survive without C-SPAN!

We listened to President Clinton's address this morning. He did a great job, as always. The calls were very favorable at first, but then you started getting some from Florida which were not too good. I tried to call, but couldn't get through.

I am a strong supporter of President Clinton. He works so hard and is so dedicated, and I think he is wonderful. Therefore, I would like to see him and hear all of his speeches, but sometimes I can't. Do you have tapes of any of his speeches? I mean, are they available? I am especially interested in the speech he made in a church in Memphis about two weeks ago, and a speech he made last April 1st, when he was with Boris Yeltsin, I think in Seattle.

If you don't have available tapes, would I be able to get copies of the texts of these two speeches?

Please let me know, and thank you very much.

Sincerely,

[REDACTED]
P. S. As one of the callers said repeatedly, the President is also very intelligent.
