

me. Lamb:

I watched your program Booknotes today (Apr. 26) and I can't understand why you put this Molly Ivins on. Usually, your program is interesting because I puts on interesting books, but this one had not one redeeming feature. She is a bigoted democrat and every Republican is the devil incarnate. She had nothing to offer, so why would you choose her? Are never heard of the woman - and I wouldn't want to be near her. The fact that Mr. Fisher and Mr. Wellstone think she is great says something about them. People who spend their life hating people or groups shouldn't be given prime time ~~like~~ TV. There is so much trash on TV, it is hard to find uplifting programs. The time has come for TV to clean up its act. Who does the air belong to? It belongs to 260+ million people - not a few promoters who control the airwaves. It is sad.
