I would have been a
"first time" caller - But Could not get
through -

Ref: Newest Confirmation Watchings -

I thought Mr. Boris's ^{SAD} (sad) rejection was a sad
day for our U.S.A. His qualifications were fine -
Then Mr. Suttis (sad) days of questioning -
was terrible - Tho he passed - Thankfully -
But this mess of Judge Thorne was the
Limit - The ugliness from the Hill Committee
was disgusting - and should never have
been put on national TV!

Anyone who could calmly Talk That Way
should have her mouth washed out !!!!!!!!!!!
She certainly was a ploy for the N.O.W. & the
likes! Women used to be ladies - Now they are

as grabby as unions -
Battle girls used to be Target & be ladies -
I think we should go "Backwards" to The Finishing Schools -
We may be in so old fashioned - But - a gal
Knows when she should exit, leave, Not return - And
if something like that happened - outrage - would not
permit - meetings - Smiles & tel. calls! -
There is no Doubt - she could get another
"Position"! Jobs are there! for qualified folks!

Anyway - As if those men were not aware of
how to be gentlemen - they need to be and most of them
are - But - when women frequent Pubs & Bars -
What can anyone expect!!!

There's a lot to be said for the

Good old Days -

of Faith - Respect - Thankfulness -
And when the ^(Praise) Higher Authority went out
of the morning exercises of starting the
School Day - and trilled down through the
horns of the Day & minds of the Youngsters -

Well, - we see the end, don't we, -

Do enjoy your program -

Ch. 29 here -

Always Fair too -

Our Country is Special - I'd like
it to remain so -
