

C-Span-

11/9/91

I watch C-Span a great deal and it does greatly concern me that I have yet to hear the problems we face and which cost Americans in All ways besides financially - because of illegal aliens. Congress has aided, abetted and invited to come with amnesties and gobs of Freebies! We constantly hear that threadbare refrain of "America being a Nation of Immigrants." These of the past had been entering legally & they were expected to take care of themselves... had to meet medical/health standards, learn our English not demand we learn theirs & teach it in our schools.. The hordes entering our country do not intend to be assimilated! Their backgrounds & cultures are totally diverse.. The issue re, illegals having their babies in the U.S., & these automatically being U.S. Citizens should be addressed. We don't need All the drugs, Crime & Diseases being imported - Nor the enormous \$ Cost.

Sincerely - [REDACTED]
