

I watch C-span because I like it. During the past year I sat each morning at about 8:00 A.M. when your call in program begins here and viewed until 9:00. Then I watched other shows after that. I also watch between 6 P.M. + 9: P.M. evenings.

In the past year I have learned first hand from your programs exactly what is happening in the world today on a daily basis. You have provided me with knowledge I never dreamed of.

Your guests have provided a large expansive view of the world and its affairs.

The variety of topics makes daily viewing something I look forward to.

Viewers also have the opportunity to contribute to your programs by the many call in numbers you list from all over the United States.

This shows a nationwide viewer response on all topics covered by your station.

I noticed you don't get angry or inject your own personal opinion on any subject even when you get a moron who starts ranting and raving and rattling like a chain. This shows a great deal of intelligence, patience and restraint.

I personally enjoy all types of news even if I disagree with the caller or

or the guest. Your guests also deserve a great deal of credit for their answers, attitude, patience and understanding of human nature. Cspan has given me a different view of the news media

I enjoy watching congressional proceedings and committee meetings there is nothing about Cspan that I dislike except when you have a liberal on and only hid so called liberal status upsets me. I feel they are anti American and pro pro themselves yet to blind to see the harm they do.

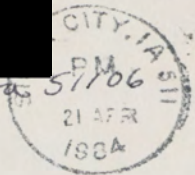

Like Judas I feel they would sell us down the river for a few pieces of silver. These liberals are treated equally by you and Cspan makes no attempt to sway its audience either for or against anything or subject encountered. I also feel they have a right to their own opinion but I wish they would not use your program to lead others into disgrace. I commend you for giving them equal time
