Great show with Harwood Cannon and Crawford. They at least tried to be fair with their answers. Please have them there more often.

Brain your reading and referring to items in newspapers is a little annoying. Much is taking out of context.

I liked yours for and against lines for a change.

I have never been able to get through to your programs and I have had C-SPAN since the early eighties it is very frustrating.

Sincerely

Dear Brian,

I love C-SPAN but I must say you let Feder get away with murder to-day. Allowing him to give his eight hundred number out and make his statement about lying to Congress. Some lawyer, if he doesn't know its against the law.

Sometime when you have Republican leaders on one of these shows who will be their Veteran candidate and 1996.
