

Dear C. Span

The fat cats Fred Barnes who appear on your program have taken over the news papers and air ways. They will bring themselves and the country down with them before their grip is loosened, with their doubled ~~there~~ trippled debt in eight years, plus allowing rogues to add billions and billions to the debt by bringing down the banks, we have not got far to go.

We have no opposition, millions of people are not being represented.

The next scheme is to get the Democrats out of Congress so that they can run high wide and handsome. The fat cats will do themselves in.
