Sir,

After 3 days trying to get on your call-in programs, I am forced to give up and write.

I hear so many people decry the current congress and call for term limitations. They, apparently, do not realize that term limits are built-in to the Constitution. These limits are in the right, and duty, of each voter to participate in election of Representatives and Senators. This duty has been neglected in the past 35 or 40 years.

Thank you for the service you perform in your coverage of our system of Government.

Sincerely,

CHANUTE KS 66720-1987
