

10/7/90

Dear C Span

I have been unable to get through to you on the Phone. which is a compliment to the good work you are doing.

This program is changing the whole political situation in America. The people are more informed and can take appropriate * action to correct action.

I want to say that some of the people you have as Guest's on your program/ so called experts, even Financial experts are completely out of touch with the American people.

Do they really think we dont understand the condition of our Country? I watch C Span constantly and I am amazed at the lack of appreciation of the understanding of our people.

I called the morning after the Budget vote to tell my Representative that he ~~lost~~ my vote when he voted against the will of the American people when he voted to approve the Budget.

I find complete misunderstanding of the way people feel about the Deficit*

I dont mind paying Taxes (my share) I guess the key to the whole situation is I dont like the way they are spending my money, Stop paying for Japans defense/ lower the Military Budget, Surely if we had 10 years of building up to fight Russia we have enough supplies to last a few Months, and surely we can defeat Iraq if that becomes necessary. I agree there are too many programs. The people are not the only ones who asked for a lot of them. They were offered by Congress for obvious reasons.

MYself I would like to see an increase from 40 Billion to 80 Billion and if Iraq can live on Water & Dates we will survive, Like Cancer it will take a radical approach & the American people will support it if the proper approach is used. Stop spending any more money than is necessary NO new programs. Reduce or close the Bases all over the World drastically,

NOV 12 ANS'D

Stop giving our resources to everyone who holds out their hands while we have people living on the Streets. I would be taking Drugs myself if I had to live that way. Charity begins at Home.

Stop spending our money on things we dont want to spend it on. I really believe that finally the people are making their wish's known. Thanks to your program & I also really believe that those in Washington & the Press dont know what they are talking about as far as the people are concerned.

IN fact I think your program is getting the real information. There are differances among people but the one thing they all agree on is the spending has to stop= -STOP. No new programs till the Bills are paid. I hear people dont want programs curtailed.

I dont believe it. If everyone pays it will be ok

I Voted for Bush & he is doing a fine job in the Gulf but I will not Vote for him again if he is on the first Tank into Bagdad.

The posturing & all the clowns raving on & on no longer have any effect on the veiwers. I hope someday I can reach you & expand a bit.

Till then keep up the good work

J.J. Russell
