

Dear C-Span.

First I'm a C-Span junkie but lately the format of Washington Journal } has diminished my listening.

You have phone number 123 why are ^{you} taking 1+3 shipping # 2 or skipping or not identify the second number.

To convince myself I called the 2 number and the line was busy so there were calls there I scored it one day with in a half hour there were 4 calls between 1st + 3rd. I noticed this now for a couple of weeks I feel your omitting the Conservative line or putting a limit all I hear caller on the Liberal line.

Could you explain my listening is being diminished each ^{one} Day

Have you repl. reply
Thank you, I'm Enclosed
