

For your investigative reporters attention:

Pan Am 103 bombing was set up by the CIA.

The bomb was carried on Pan Am 103 by the CIA operative from Beirut without his knowledge. He was told he was carrying a very secretive package to deliver to the CIA in DC. He was expendable in the same way Nixon was considered expendable when he was originally scheduled for the 007 flight sent by the CIA over Russia to insure glaring headlines at the loss of this ex-president and to give the US opportunity to blame Russia and turn world opinion against Russia, and probably gain backing to use the same rotten military power at that time that we used in the Iraq massacre last year. But somebody got cold feet or Nixon was told about the plan, and they sent the Georgia legislator instead so at that least some US political name would hit the headlines and the Russians could be blasted as bad guys, evil, and all those other names given to Saddam after he followed CIA orders to invade Kuwait. Tutweiler was asked about the Beirut CIA operative who was aboard Pan Am 103 when it was bombed. It shook her up. Later it was denied that he was on board. He did not know the secretive luggage he carried held the time bomb that would cost him his life or that he was being used.

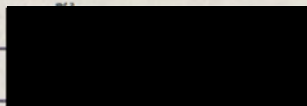

Objective: Bush and his right wing idiots believe the only way Bush can win the next election is with some foreign military involvement which will they feel will hide his stupidity, his lack of human decency, his lack of character, and his inability to carry on a conversation beyond third grade level. The lives of people in other lands are expendable him and his fellow crooks and thieves, and to maim and kill women, children, babies, the greater population of a nation, ruin the country and environment like we did in Iraq, would suit Bush and his right wing cohorts in their effort to win the election and make money at the same time. He knows most ignorant, uneducated, and racist people are warmongers and make heros out of those who stomp on our valued Constitution and wrap themselves in the flag while they commit military murder in some other part of the world to gain false glory in this country.

In 1988, the CIA military industrial complex decided to bomb a US aircraft then use the forensic way to blame Syria or Iran or both and carry out a military operation similar to the massacre in Iraq last year to show military strength and almighty power of the US to stand as boss and ruler in the so called new world order. They could not get that story to stick and now that Syria and Iran cooperated in the Iraq massacre it got them off the hook. Libya is now the fall guy in the CIA effort to help Bush bring up his poll points and hide his lack of ability and quality stature and also give the military industrial complex another opportunity to show the need for defense spending so they can continue making killing machines and bombs and making billions of dollars. Libya had nothing to do with the CIA bombing Pan Am 103.

Who is buried in Casey's coffin? If Millard Fillmore's coffin could be exhumed and checked how about digging up the box Casey was supposed to be buried in and see if it was not some body made up with the CIA Casey makeup makeover. Casey is out there doing his dirty work. Bush had a slip of the tongue in Maine when he got nervous about the October Surprise questions and said, I don't know what Casey will do. Present tense. He quickly changed it to who knows what Casey would do, he's dead now. On Larry King show with Caseys wife and daughter the daughter made a present tense mistake too. L.King made a remark about comments being made about Casey, and his daughter said, That makes my father so mad. Present tense. She quickly changed it to that used to make my father so mad. See videos. Very important slips of the lips.

It should be investigated. Casey could be hiding out right in the White House or in New York with the CIA Cardinal O'Connor, maybe even be parading around as a priest or a bishop or in Rome with the CIA pope. Bush went to Rome. He skipped China, but not Rome. Did he need and get the Libyan advice from Casey or the Pope and advice on how to run a racist campaign. In Rome he started to promise help with Aids, credit card interest and fibbing all the way. He probably got a script and instructions there and told to drag up the Pan Am 103 bombing at this low poll time and blame it on Libya. Pope would like to get Libyans adding to his pockets, like has people giving all over the world even the destitute.

Keep pressure on to gain full disclosure of the Frank Sturgis shooting of JFK with the help of Howard Hunt, and the Dan Danforth Quail cocaine coverup, the October Surprise, the oliver north and Terry Waite scandal, and the hundreds of other crooked actions of the reagan, bush, oliver north, elliot abrams, casey, baker, thornburg, weinberg, naming only a few who should be tried for treason.
