I assumed you would give honest coverage to the March for Life '90, especially when 75- to 100,000 people — from all over the United States — made the sacrifices necessary to go to Washington D.C. to show the Congress & the whole world that we believe Roe vs Wade was a horrible error by the Supreme Court and that we want our Legislators to rectify this error by passing legislation ensuring the right of personhood to the unborn from the moment of conception.

But no — C-SPAN showed itself to be no more — no less — than the obviously prejudiced TV networks that gave a minute & minimum amount of coverage to the thousands of Marchers and

then gave equal (or more) coverage to 6 or 7 women who were putting on their own little "demonstration" to support abortion! They purported to be crying over the number of women who died at the hands of the butchers who call themselves abortionists. I didn't hear them speak a word or cry a tear for the 20 MILLION AND MORE BABIES who have died at the hands of these doctors who have made millions doing the same thing as the abortionist butchers.

My previous respect for your operation has been completely dissipated. You "editorialize" the news by your lack of coverage or "over" coverage — the same as the other pro-abortion networks!
