Dear Brian:

The 25<sup>th</sup> anniversary celebration of C-SPAN on March 15 was without question the highlight of the year for me. Thank you again for the great effort by you and your staff in putting it all together.

I also want to thank you for your handwritten postscript regarding NIH. I am very impressed with Dr. Zerhouni and what he is attempting to do. C-SPAN can help and I greatly appreciate your interest.

Very best wishes.

Cordially,
