

Mr Lomb,

Wichita Falls Tex
March 25, 1994

It's 8:51 AM CST Fri.

Your call in has left me so
depressed and 71 years old on SS

I can't afford a Ford or L.D.

I need a pill that costs \$2.00 each
to make my body ceter go way
enough to function this day. So

I began praying even before your

program was over. In my
heart sending concern for our

President + First Lady. I asked God

what can I do? God said

write + tell them, you will gladly

Give your body to be burned - they
can love your left blood & wear it.

If they were only stop - we want
our President to President. We want
Hillary to get us some health cover

you & reporters especially that old
red-haired woman stop it - we will

re-visit Mr. Clinton. So your efforts
are fruitless. They're such beautiful

people inside. Good people & willing
to do for me, my American what I

am unable to do. Let them alone

or I pray God you all down

in white water. Caring & Concerned

↓ that's V. you know too!

Copy to Mr Lomb

Dear Madam Attorney General:

Rush Limbaugh's tongue is a lethal weapon turned on the President. That is against the law. He means to destroy President Clinton. Even if it means destroying the U.S. of A. via stock market crash etc. First amendment rights have protected him so far. But now his arrogance has caused him to lose control utterly. A lethal tongue like his can kill and destroy. He must be stopped. Please hear me before it is too late. And someone really sick listens. I cannot bear to have another beloved President murdered. And he must stop murdering the First Lady with his tongue. President Clinton needs Hillary. I need her. I'm 71 years old. It is so gratifying to see a help-mate truly fulfil her role as she is. Thank God for their brains and education. Finally after 12 awful years of ordinary or simple intelligence we now stand a chance

You may recall I wrote you a letter of encouragement when you were being so berated during the early days of the David Keesh horror. And now will you extend my encouragement to George Stephanopoulos too? Thank you.

She answered to:

Sincerely

Mr Lomb. Do you Republicans
+ V. protection etc think you can
get President Clinton impeached?
What do you hope, especially to accomplish
with your horrible trashy. You never
see did something you wouldn't want me
to know?
