I am an American who has lived in Norfolk England for the past 10 years. When I visit my home town of Yakima, I listen to C-SPAN everyday. I especially appreciate your coverage of conferences of national organizations and then your coverage of important state and local government events. The other networks would never offer the nation the debates of the California Candidates for governor or the Press Club talk.

I was surprised to hear on a call-in program someone from Liverpool. Do you know how I could hear C-SPAN in Norfolk, England?

Yours truly,

Stanford
