Dear Sir/Madam:

It is now more than six months from the time when Slovenia and Croatia declared forcible, unilateral and therefore unconstitutional and illegal secession of Yugoslavia.

I am very deeply disturbed by US media coverage of the situation in Yugoslavia. It is so one sided, so pro-Croatian, that it just cannot be accidental. It is also very much anti-Serbian and anti-Yugoslav Army. Any statement by truly Goebelssian Croatian propaganda is echoed by State Department almost immediately, without as much as shred of evidence. On the other side, when it was clear that undescrivable massacre of civilians and children in Vukovar cannot be blamed on Serbs and Army, it silently disappeared from the news. In this shameless reporting the worst by far is CNN Headline News, which, for a six months now, "could not find" any Serbs defending their homes in Croatia ("Serbian rebels and terrorist", in CNN code), "could not see" the Serbian villages flattened and civilian population massacred. Somehow, Serbs there, their homes and churches, are bullet-proof. Many slaughtered civilians shown as "Croatians" are now proven to have been Serbs. This goes on

I expected something better from C-SPAN. In past six months I have very likely seen everything that you had, even remotely related to crisis in Yugoslavia. If there was some confusion about what is really happening there in the beginning, you have no such an excuse now.

Day by day, the litany of accusations against Serbia and Federal Army is continuing unabated. But there is never somebody from Serbia or the Army to present their case. Senators Dole, Hatch, D'Amato representatives Smith, Lantos, Rorrbacher, Dornan... , all well known as enemies of Serbia and Yugoslavia, are spitting their hatred and shameless lies incessantly.

The ignorance (or is it the ignorance?) of your hosts is appalling. Entire conversations are lead blasting Army and Serbia, without anybody from their side present. The blatantly fascist Croatian state attempting third genocide against Serbs in this century is painted as democratic. Serbian president Milosevic is "Stalinist dictator", unlike "democrats" Tudjman and Kucan. The truth is that they all are elected by their people, and all are former communists. Your hosts are listening to "oppression by and hegemony of" Serbia, never asking how Slovenia and Croatia have so much higher per capita income, why are three last Prime Ministers Croats, how can Mr. Mesic, from seceding Croatia be a president of Yugoslav Presidency? Foreign minister is Croat, even defence minister half Croat-half Serb. Communist dictator Tito was Croat, his right hand man Kardelj, Slovenian. Yugoslav ambassador to US not a Serb, ambassador to UN not a Serb. Where the hell are all those dominating Serbs? Strangely enough, they somehow hide from C-SPAN. If not inviting Serbian Americans (although you do invite Croatian American), why don't you invite Congressman Moody, or Congresswomen Bentley, to tell you the true horror story of Croatia and Slovenia, story of massacre and genocide against Serbs in Croatia, just because they are Serbs, and not Catholics. The story of old fascist sponsors of WWII Croatia, namely Germany, Italy, Hungary gathering again behind Croatia, supplying arms in spite of official embargo, training their troops etc. The story of Vatican and cardinal Wojtyla, our Slavic brother(?) from Poland, now a Pope, and his commissar cardinal Kuharich, in Zagreb, who are behind all this as well.

But it is sickening to write about all this. To see C-SPAN virtually promoting it, is truly disheartening. Shape up C-SPAN ! Let us hear the other side, as so often you would like us believe, is the American way.

Sincerely,
