

One caller said "C-Span was getting too conservative." Too conservative?

If every one who thinks that could get through that R'phone bank, believe me you'd get an ear full starting with me.

The last D meeting I attended they specifically discussed among all the other political programs on TV or radio, C-Span

It isn't surprising that anyone whom isn't conservative or R' "Thank You" for your show, because you don't deserve it.

We wonder where are all the Ds in Washington. According to our monitoring C-Span they are few and far between on your extremely biased conservative corporate controlled Anti Clinton conspiracy. You're collaborators.
