Dear concerned,

I was surprised and heartened on Saturday - Aug. 29 on our channel 36-C-Span to see a narrated film on Northern Ireland. This informative film was dispassionately observing the aspects of martial-law in the walled city of Belfast.

I wish information as to that film and any reshooting. Also, I wish to know the whereabouts of the film as it contains material that certain special interests will try to (as in the past) to suppress.

Please advise
snap-

Much concerned,
