Dear Mr. Lamb:

This letter is a little late in thanking you for your support of the Close Up on C-Span programs for 1992-1993. Our students participated in March 1993 on the "Gays in the '90s" program.

The students who were selected to participate greatly enjoyed their experience and hearing student questions from students in two other states as well as the guest panelists' replies.

As a history teacher I thoroughly appreciate the opportunity this gave to students to research a controversial topic and then participate in a national program.

Again, thank you for your sponsorship of this program.

Sincerely,
