Greetings:

We like C-SPAN because it gives us a new perspective on current events and the people that are making important decisions at this time.

✓ C-SPAN takes the waste out of Television's Wasteland. When all other networks fail us, it fills the void. It provides a most welcome alternative type of program.

Who could fault the brilliant format displayed on April 25th? We who stayed tuned after the call-in session, were treated to the most original satire of the current scene in Washington. The fresh new group called the "Capital Steps" was superb! The performance of tongue-in-cheek candidate Jim Buren was the frosting on the cake.

You provide such a wide variety of programs! We don't know how you do it so consistently, but hope you can keep it up. With our retirement we are savoring every minute.

Faithfully yours,

Lexington, MA 02173
