Dear C-Span

There was a person in my life who used sarcasm to put people down. I found that to be difficult to tolerate.

Sometimes I hear members of the House use sarcasm against invited panel members. I need to turn it off and take a breather.

I know quite a few Republicans I am and always have been a Democrat.

Before I knew who Hillary and President Clinton were, I heard bad things said about them. It seems that they despise

Hillary the most. The Republicans have said to me, "You ruined a good man when you ruined President Nixon".

On purpose and without much imagination they used words that were mindful of Watergate. File Gate - Travel Gate etc.

They say bad things every day, many times a day, but they don't think of that when they cry about the liberals "Trashing and maligning" Starr for instance. Of course you know all of these things. I'm afraid that they will never stop.

Sincerely,
