

1-15-92

Mr. Lamb, your programs on C-Span have very special meaning for a person (age 87) with difficulty seeing and reading and still a deep desire to stay informed. Your thoughtful, ethical approach contribute greatly also.

When I turn on the T.V. and go from station to station often the T.V. would be turned off except for that last turn to (Ch 31) C-Span.

When your program is over I retire
with the feeling a person has after
spending a pleasant evening with friends.

Thank you, sincerely and very best
wishes now and always for the members
of your staff and you -
