to whom it may concern,

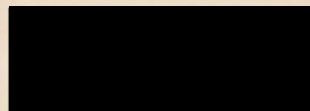

i write to complement you on your coverage of some of russia's news broadcasts, i'am very intreaged by these broadcasts and enjoy them very much, please keep these on as i'am very intrusted in the news from the u.s.s.r with parestrika, and glastnost this brings the soviet union closest to me and this helps to understand what my fellow human beings are thinking and doing with their new found freedom since president gorbachev proposed freedom for the people of the the soviet union and to her republics and not where he's in the way of their wanting freedom from the union the soviet's news broadcasts are fine and they do not need the editorials or extra comments that some stories usually get, so please keep this program on c-span and keep up the great work and the proگرامing of the soviet news programs.

respectfully yours,

miss [REDACTED]
