

Will you please have the  
perpetuators of this Thomas-  
Hill affair on your C-Span?

I think it only fair for  
them to be viewed by the  
public also.

They could perhaps make  
clear if they, as staff  
members, use ethical memos  
to obtain information as  
ordered by the senator for  
whom they work.

I do not believe these  
staff members plus the  
senator for whom they  
work should be allowed  
to sit back complacently  
congratulating themselves  
on the furor they instigated.

I hope this address
