Mr Bryan Gamb
Editor C. Span T.V.

Dear Bryan, -

The active principle is what counts, your actions
and what you convey is T.V. Democracy at work.
This is true in daily living. We must learn this
and abide by it. It is very hard for people to learn
principle, because there are so many deviations.

In any new reformation in any country - principle
must be the rule with which to guide people.

Principle must be put into action -

The Active Principle in drugs prolongs life (Knowledge
Antibiotic Research)

The active Principle in food builds life. (Food, Fiber -
Nourishment, Sustains life)

Babecue is food, the active principle is meat,
It's what's between that counts - we must not deviate.

Mr Bryan Lamb
Editor C. Span T.V.

Dear Bryan, -

The active principle is what counts, your actions and what you convey is T.V. Democracy at work.

This is true in daily living. we must learn this and abide by it. It is very hard for people to learn Principle, because there are so many deviations.

In any new reformation in any country - Principle must be the rule with which to guide people.

Principle must be put into action -

The Active principle in drugs prolongs life ^(Knowledge Ant-biotic research)

The active principle in food builds life. ^(Food, fiber - nourishment, sustains life)

Babache is food, the active principle is meat, it's what's between that counts - we must not deviate.

Truth in action on your Germany tour was very significant. The four college ^{students} that you interviewed, did not know the name of the symbol of the G.D.R.

1/2 of the world, is part of a circle. The center is what counts. An Arc, a triangle and two lines and a point. The arcs are the principal lines, the arc the periphery. A is to B, as X is to Y - the sector is part of a circle. The people are inside this sector. They are what counts - It matters not if they are on periphery or in the center. They should be able to understand the meaning.

Third worlds with a bomb only need a trigger. Schools and parents are responsible.

we must try to advance to perfection in TV especially
upon T.V. Actions the world can be reformed
we must show simple meaning
Billion's Abound. Language must be changed to meet
the time, Formats must be framed.

Biological change and Culture must be dated.

Genius must be studied. Radicals must be abolished.

Concepts must be simplified and concisely symbolized.

Unity of mood should be expressed.

Truth and morals should be addressed.

The whole Culture understood, practiced and expressed.

Resources, People, genealogy, land terrain location,
temperature, right and wrong, morality - science, behavior
quality, negative & positive, character, hope, despair.

humanity, Social Problems, Need, transportation, imitation
services & Purpose, Paper money, Sovereign - governments.

Amalgamation, combination, worth, desire, benefit,
need and worth, truth and falsehood, method of
display, disparity - Portrayal - Punishment.

ethics, harm, hate, Loyalty, Honesty, faith, Conscience,
and love, Love is life. Run with it.

What good is life unless it contributes to
society something good?

Evaluate the human race.

Sincerely,
